### **Sea Beauty Scent-ology**

Scent-ology is the science of connecting your blended essential oil with your home. It's a Sea Beauty thing and we know that you will love it. If you have never heard of it, that is because it's a SB signature scent created by Heidi. Choose from either;

- ◇ North Beach ocean caress
- ◇ Hillary's revive
- ◇ Trigg Beach coastline
- ◇ Scarborough's exotic nights

*People were randomly selected and tested from our Northern Beaches. They were asked to choose their favorite aromas from our non-problematic skin care oil list. They were asked to identify scents that reminded them of their home beach suburbs. Essential oils were then combined to give you your safe, coastal signature oil blends.*

The Sea Beauty Scents are Australian, they are locally WA, and they are inspirational. Most importantly..... they are yours. Choose your favorite and own it.

**Dermapen Skin Needling** – This treatment helps the skin to repair itself by an automated micro-needling system that vertically pierces the skin to naturally stimulate collagen and elastin. There is very minimal damage to the epidermal layer of the skin. It has the following uses:

- ◇ Skin tightening,
- ◇ Healing acne scars and wounds,
- ◇ Minimising open pores,
- ◇ Improving wrinkles and fine lines,
- ◇ Improving stretch marks, and
- ◇ Aiding the penetration of serums

Full face	\$300	Ultimate: Full face, neck and décolletage	\$550
Full face and neck	\$350		

Hands can be added on to any treatment for an additional \$50.

**IPL** – IPL and SHR is not a walk-in treatment. This specialized treatment requires us to understand your skin / hair type and your medical history. IPL is not for everyone and we understand what will work best for you. You will have to undertake a patch test and give us your consent before we can commence any program of treatment. Now that is out of the way.....it is the way ahead for a range of dermal issues including the treatment of acne, for hair reduction, for pigmentation treatment, for skin rejuvenation and for the treatment of vascular issues.

**Rejuvenation and Pigmentation**

IPL generates intense pulsed light, which converts to heat energy as it reaches the collagen layer beneath the skin. The light eliminates signs of ‘photo aging’ such as pigmentation, freckles, sunspots as well as spider veins. The light is attracted to any depth of colour in pigmentation on the skin’s surface and will usually break it down.

**Vascular and spider veins** - When treating surface veins (spider veins), the light is attracted to the hemoglobin within the vein, converting it to heat energy, which destroys the lining of the vein wall. Treated veins will fade and slowly disappear as they are absorbed naturally by the body, similar to the dispersion of a bruise. Blood flow will then be directed into veins deeper within the dermis so they are no longer visible.

**Acne** - When treating acne, the light targets the bacteria and also may shrink the sebaceous glands.

Full face	\$300	Half face	\$160
Full face and neck	\$345	Neck and décolletage	\$300

Full face, neck and décolletage	\$500
Multiple spots (up to ten)	\$110

These treatments are for the truly committed, youth conscious, age reversing and dedicated client. Pre-requests for level 3 peels: Clients must complete a course of level 2 skin treatments and have a commitment of daily use of our recommended products.

What level are you? What level would you like to be?

Ask Sea Beauty about our skin membership program. Let us help you receive your ultimate skin goal.

**IPL and SHR hair treatments**

At Sea Beauty, we offer a course of treatments to suit your specific hair type. IPL and SHR treatment plans require multiple sessions. After the initial program is finished, you will require maintenance. Although the treatments are expensive, the results are significant and vary from person to person.

You have no doubt heard about IPL. You have most likely decided that you want to try it. Have you heard about SHR? It uses the IPL machine but the pulse length is much longer, resulting in much less pain when compared to traditional IPL.

For most people, a course of five treatments should be sufficient. Talk with our skin trainers to develop your own personal plan. The following prices are for single treatments.
